

## Clark Forklift

At this time, there are over 350,000 Clark forklifts performing worldwide, and more than 250,000 in use in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique makes of lift trucks, with components covering more than 120,000 particular items for all of its automated equipment. Your local Clark Seller is your complete source for availability of all your parts requirements offered by Clark Totalift.

Clark's phenomenal Parts Distribution Centers are conveniently situated in Louisville, Kentucky, which serves both their consumers and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Driven to provide the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a very outstanding intercontinental support network. With over 550 locations globally, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their consumers predominates the material handling market.

Clark proudly remains an innovative leader of the industrial equipment industry, pioneering safety features such as the worker restraint system. This exceptional commitment to safety is now a customary feature on every forklift.

Clark's continual mission to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 — Clark, is the first lift truck maker across the globe to be certified with the globally accepted quality standard ISO 9001 for all of their manufacturing facilities. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any number of environmental limitations, thus placing them in a prevailing industry position.

### Lean Manufacturing

Clark has preferred the particularly economical and beneficial system of "Lean Manufacturing" for its assembly facilities and use of resources. This structure was developed to acknowledge the most successful method of manufacturing plant stewardship and ensuring maximum proficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

### Engineering

By working in concert, Clark's product suppliers and engineers communicate towards improving product effectiveness while minimizing costs. The contemporary value engineering program combines modern product improvement and delivers superior client support and service within the industry.
